Large Cap Value Dividend Select is an actively managed equity strategy that seeks to provide above-average dividend yields and diversification across major sectors of the benchmark. The benchmark is the Russell 1000 Value Index. Prior to January 1, 2008, the benchmark was the Dow Jones Equity Income 100 Index. It was changed to more accurately represent the investment strategy. The Large Cap Value Dividend Select composite creation date is July 1, 2004. Gross-of-fees returns are presented after trading expenses and before management fees. Net-of-fees returns are presented after the highest applicable management fee applied on a monthly basis. Prior to January 1, 2012, fees were applied on a quarterly basis. The highest applicable management fee is 0.60%. From January 1, 2009 to December 31, 2009, the highest applicable fee was 0.55%. From January 1, 2007 to December 31, 2008, the highest applicable fee was 0.92%. Prior to January 1, 2007, the highest applicable fee was 1.00%. Fees are calculated separately for each portfolio, and therefore, performance may differ from one portfolio to another. The fee schedule is: 0.60% on the first \$25 million; 0.45% on the next \$25 million; and 0.30% on all additional assets.

The Russell 1000 Value Index measures the performance of those Russell 1000 index companies with lower price-to-book ratios and lower forecasted growth values.
